Welcome to our first regular auction for 2022. Once again we have a great mix of toys and collectables.

There's an excellent selection of **live steam** items which includes more than a dozen stationary engines, also live steam cars, trucks and traction engines, and our featured item the Wilescos steam-powered "African Queen" wooden boat.

There are some Mamod live steam **train sets**, also extra locomotives, wagons and track. And there are plenty of **steam accessories** including spinning toys and workshop tools.

We have a superb range of **Australian HO-gauge** brass locomotives, also books and Australian railway memorabilia. In other HO/OO there are locomotives and rolling stock from Marklin, Electrotren and others.

In O-gauge there are a few Australian **O Gauge House** kits, along with locomotives, wagons and accessories from Hornby and others.

Large scale **1-gauge trains** are always much sought-after and we're pleased to have a small selection in this auction, including locomotives from LGB and Bachmann Spectrum,

also LGB coaches and wagons, track, and more.

And there are railway books, magazines and DVDs. There is also a range of Australian tram books and a few trams and buses.

We have **boats and ships** again this month including ships kits, a few metal and wooden models, and lots of maritime books.

This auction sees another great collection of **Minic** toys, including cars and trucks in tinplate and plastic. And there are lots of other **tin toys** including cars, trucks, animals, space ships and robots. And there are games, puzzles, novelty and sci-fi items, and various other curios.
