THIS MONTH'S NEWS FROM TPA

Keith's Trivia

Keith is too busy right now to be trivial, so we don't have any questions for you this month. But the trivia will be back next month, and we do have last month's answers:

1. The LNER railcar named "Phenomena" was manufactured by Sentinel of Shrewsbury, England.
2. The aircraft originally called the "Model 44 Excalibur" was the Lockheed Constellation, or "Connie".
3. The one time world's largest manufacturer of diecast model toy cars was Tootsietoy.
4. Disney's second-richest duck was Flintheart Glomgold.

Blackheath Rhododendron Festival

Spring is here and the annual Rhodo Festival is coming soon. The main festivities are held on the first weekend in November, but the Campbell Rhododendron Gardens are open to the public all through October. See rhodogarden.org.au for more information.

We'll have more details about the festival in our next newsletter. But in the meantime, you can come and see the lovely gardens, and all the beautiful blossoms in the Blue Mountains.

And don't forget to visit us here at Trains, Planes and Automobiles. We've got a spring in our step and our shop is open on Mondays, Fridays and Saturdays from 10:00am to 4:00pm.
